## IT BEGAN WITH A DREAM

In sharing my excitement and belief that art can be the soul of happiness, I began to believe that "anything is possible, if you simply try".

Stardust is my dream realized. Emerging in 2009, and since reaching out to over 7200 students, I have been able to make a difference in this lifetime. As a professional artist there can be many setbacks, but I have yet to find one that has dampened my spirits to give back and continue on the path of art. An ideal I extend to my students in class.

My teaching methods are unique, and I share the spirit of the inner child. Each student is unique and their talents never ceases to amaze me! Children have "incredible minds" and they have much to share with everyone. So take the time to *listen and support* their art. You will be rewarded by providing a well rounded education and being a part of their experience with Stardust Arts.

Explore visual art and teach children that problems can have more than one solution

Who can imagine a world without art?

Throughout history, the arts have been an essential part of the human experience. In every culture the arts reflect the finest achievement of the human spirit and are a means by which culture is defined and measured.

Artists who are creative, think outside of the box and believe in the "power of art" and the values it brings to youth and the community.

Stardust Arts brings the best out in "everyone" and looks forward to sharing with you and your child as you "join us" in an art experience and education like no other.

We reach out to the underserved community and provide An art enrichment experience.

We accept donations for sponsorship of students, programs and projects, for those that simply cannot afford it.

Your donations are graciously accepted at all levels, and we diligently continue to pursue all avenues of funding.

We thank you for your consideration and support of the Arts.

Visit us online and enjoy the youth art!
